Profile

I am an organized and dependable multitasker with a positive attitude, skilled in programming languages and web development. With a consistent CGPA of 3.10 and recognition on the honor list, I have a strong foundation in analytical thinking, problem-solving, and technical writing. Eager to leverage my skills in programming and software development to contribute to team objectives and tackle new challenges in a professional environment.

Education

11/2021 – present
Pasadena , California,
United States.

Bachelor of Computer Science Degree, *University of the people* [🔗](#)

- On track to complete a degree in Computer Science with an emphasis on programming and software development, specializing in Cybersecurity.
- Maintained a CGPA of 3.10 out of 4.0, earning recognition on the honor list.
- Enthusiastically pursue additional courses on online platforms such as Free Code Camp and Coursera to supplement formal education.
- Demonstrated proficiency in various programming languages, including HTML, CSS, JavaScript, Python, and Java, through coursework and independent projects.
- Completed coursework in key areas such as Algorithms, Data Structures, Software Engineering, and Cybersecurity principles.
- Regularly contributed to academic discussions and forums, enhancing understanding of complex technical concepts.
- Developed a personal study plan to stay updated with the latest trends and advancements in the field of Computer Science.

Skills

Programming Languages — Proficient
HTML, HTML5, CSS, CSS editing, Python (Django), Java

Version Control — Competent
Git, GitHub

Operating Systems — Competent
Windows, Linux

Analytical Thinking — Proficient
Strong problem-solving abilities and critical thinking skills

Adaptability — Proficient
Quick learner, adaptable to new technologies and environments

Instruments — Proficient
ViolonCello, trombone

Web Development — Competent
Bootstrap, PHP, XML, JavaScript, responsive design

Software Tools — Proficient
Visual Studio Code, PyCharm, Eclipse

Frameworks and Libraries — Competent
Django

Communication — Expert
Excellent verbal and written communication skills, technical writing, academic writing, and report writing

Creativity — Proficient
Innovative approach to problem-solving and project development

Certificates

FreecodeCamp 
Responsive Web Design
Certification

Projects

- 2022

Job Portal, *Your One-Stop Shop for Career Conquest (Not on GitHub)*

Imagine a sleek, user-friendly platform where job seekers and employers can connect seamlessly. That's exactly what I built with my Python (Django). This portal boasts a powerful search engine, intuitive job posting features, and a visually stunning interface crafted with HTML and CSS. It's a career game-changer, waiting to be unleashed!
- 2024

Portfolio Website, *A Showcase of My Coding Prowess (Not on GitHub)*

Showcases skills and projects in a visually captivating format, Responsive design with Bootstrap ensuring a seamless experience on all devices.

Challenges Overcome: Ensured optimal performance and accessibility across various devices and browsers.

2021 – present

Additional Websites [!\[\]\(43d9217bb24978652ee990eeb5d584bb_img.jpg\)](#)

I have built many websites both for individuals and personal sites for brands and companies. A few of these projects can be found on my GitHub account
